Course Fee: \$635

AR-2 Automotive Plastic Welding Repairs

Course Duration:	March, July and November 2020 check our www for dates
Who is the Course for:	The 2 day (or 3 evenings) course is aimed primarily at people already employed in the Motor Repair or Resale Industries and those involved with Aircraft and Marine refitting and repair. Previous plastic repair experience is not essential.
Group Size:	The course is limited to eight (8) students to ensure full participation and safe working conditions. (Students must have covered footwear).
Course Objective:	At the conclusion of the course, each student will be able to repair damaged Automotive, Aircraft and Marine plastic components to a commercial standard.
Course Program:	<i>The course is practical in nature with at least 80% workshop 'hands-on' content.</i> Welding and bonding repairs to rigid plastic components such as grilles, under-bonnet items and bumper repairs, filling and re-texturing surfaces where needed.
Course Lecturer:	Ken Lethborg, Trimfix Supplies, Melbourne. PARTEC brings Ken to Queensland several times each year to assist with his expert knowledge and experience in automotive plastic repairs.
Course Venue:	PARTEC Institute is located on the TAFE Brisbane campus, at 'P' Block, 1030 Cavendish Rd, Mt Gravatt, Qld 4122.
Course Fee:	\$635 Course fee includes all lecture notes and materials. National Training Units included with this course are subsidised by the Queensland Government. A light lunch is provided each day. (GST is not applicable to Nationally Recognised Training).
Certificates:	This course includes Units of Competency from Nationally Recognised Training packages. Students receive a PARTEC Statement of Attainment upon successful completion of the course.
Registrations:	Registrations can be completed online by visiting: www.partec.qld.edu.au In the Plastic and Engineering Short Courses Menu Fabrication Courses Enquiries can be made via our 'Contact Us' webpage www.partec.qld.edu.au or by calling (07) 3849 7878.
